
Upgrade It Spotify Premium Guide

This guide explains the step-by-step process for buying an upgrade key, entering it, checking status, and renewing premium. The homepage advertises a Spotify Premium upgrade service with a single pricing option of **1 Key for \$14.99**, plus instant delivery, lifetime replacements, and 24/7 customer support.

Start on the Homepage

Open the Upgrade It homepage and review the main options. The page shows two primary buttons: **Upgrade Now** and **Renew Account**. It also lists the service benefits: instant activation, secure and safe processing, 24/7 support, and unlimited replacements.

The homepage pricing section shows one option: **1 Key — \$14.99**. Included items are **1 Upgrade Key, Instant delivery, Lifetime replacements, and 24/7 customer support**.

The homepage also explains the overall flow in three steps: **Purchase a Key, Submit Your Details, and Enjoy Premium**. The account will be upgraded within minutes after the details are submitted.

Purchase an Upgrade Key

Select **Upgrade Now** or use the purchase button from the pricing section to begin. The upgrade page shows **Step 1: Purchase an Upgrade Key** and offers **Pay with Stripe** as the payment method.

After payment, the **upgrade key is sent to your email**. Check your inbox and spam folder, then copy the key and paste it into Step 2.

Enter Your Details

On the same upgrade page, continue to **Step 2: Enter Your Details**. A required **Upgrade Key** field appears with an example format like **XXXX-XXXX-XXXX-XXXX**.

Most upgrades are completed within **5–10 minutes**. The service works with **both individual and family plan accounts**, and passwords are **not stored on their servers**.

Check Key Status

To track your upgrade progress, open the **Check Key Status** page. Enter your key in the field and click the green **Check Status** button to track your upgrade or renewal progress in real time.

Renew Premium Later

If Premium expires or you need to reset the key, open the **Renew Premium** page. Renewal is **FREE** with your existing key and offers two options:

- **Reset Key Only** — Resets your key so you can use it on another existing Spotify account.
- **Automatic New Account** — The system creates a fresh Premium account and automatically imports your playlists, liked songs, followed artists, and listening history.

Both renewal types typically take **5–10 minutes**. Note that renewal is only for accounts that previously had Premium through this service. If you are getting Premium for the first time, use the **Upgrade** page instead.

Renewal Details

Spotify allows an account to be upgraded only once per year. If your last upgrade was less than a year ago, you may need to use a different account. You can either use an existing account you have (Reset Key Only) or let the system create a new one (Automatic New Account).

If you use the Automatic New Account option, all playlists, saved songs, followed artists, podcasts, and listening history are imported automatically. You can also update your original account's email in Spotify settings after renewal.

Complete Process Summary

1. Open the homepage and confirm the plan — **1 Key for \$14.99**.
 2. Click **Upgrade Now** or **Purchase Key**.
 3. Pay using **Stripe**.
 4. Check your email for the delivered upgrade key.
 5. Paste the key into the **Upgrade Key** field on the upgrade form.
 6. Wait for the upgrade to complete, usually within **5–10 minutes**.
 7. Use **Check Key Status** if you need a progress update.
 8. If Premium expires later, use **Renew Premium** and enter the same key to reset it or request a new migrated account.
